DETAILED ACTION

1. Applicant's Amendment/Remarks filed on January 21, 2005 has been fully considered and entered.

Allowable Subject Matter

2. Claims 2-4 and 6-8 are allowable as the prior art of record does not teach or suggest the applicant's invention. The amended claim language and the applicant's remarks in response to the Office Action (November 17th, 2004) distinguish the application's invention over the references that accompanied the office action.

3. The following is an examiner's statement of reasons for allowance: the prior art of record, in particular Tanaka et al. (US 5,812,337), Elliot et al. (US 6,493,161 B1), Ionescu (US 6,301,068 B1) taken alone or in combination does not teach or suggest "*wherein a relationship $T > W > T - WB/v$ is satisfied, where W is the time in which the first and second pulses exceed the current amplitude at which the magnetic recording medium can be recorded, T is the time length of the recorded pattern, v is a relative transport speed of the magnetic head in the track direction of the magnetic recording medium, and WB is a write bubble size.*"

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Dakroub (US 6,650,493 B2); Soichi et al. (US 5,867,334); Dakroub (US 6,466,386 B1); Dakroub (6,710,956 B1).
